

## 5th Newsletter dated 30/03/2011

One year ago today I launched my websites

Meanwhile I've been through a major crisis and now I hope to emerge strengthened by the experience, to help my concern becomes more and more of a breakthrough. But it's still a long way to raise awareness of the dream quality of our lives. Many authors such as Vadim Zeland (Newsletter 3) and Stefano Elio D'Anna (Newsletter 4) and Arnold Mindell with his work, "DREAMING WHILE AWAKE, Techniques For 24 Hour Lucid Dreaming" (techniques and exercises, to become aware of the non dualistic dreamy background of everyday reality), they clearly demonstrate how fragile our so-called reality in truth is. It also shows in return that the materialistic nature of our Sciences neglected the forces of thoughts and feelings as just a reality-creating potential and we can observe an accumulation of evidence that these laws are active, like the laws of nature on a higher level in absolute accuracy.

The mutual effect of all levels of being that is physical, mental and spiritual, can be only brought together into a meaningful whole by the philosophy of immortality . Separately, they are however incompatible ideologies in their own fields, these limitations by no other way of compliance can be accommodated.

My conviction that we are all immortal and that this world is fair, has proven itself in the most difficult times of my life. Without this meaningful living man is a danger to himself and all living things. Our modern age with all the technical toys and instruments has not led us to a more satisfactory way of life, but immersing us in the highest risk an unpredictable nuclear and genetic engineering, which no insurance does finance anymore. Will that anyone? Slowly starts the greater number of people to wake up and to vote against this madness.

"Future belongs to those societies who manage, to achieve with minimum resource consumption optimal wealth. Thinking from the last century lead to a dead end. Or as Einstein said, «We can not resolve the problems with thinking the same, by which they are incurred.»" Letter from Fritz P. Wassmann, Das Magazin, page 4, No. 12, 2011

At the moment I read the work of Petrov Arcady, which describes the Russian healers and clairvoyants. Arcady Petrov is connected to what Grigory Grabovoj teaches and Petrov describes his way establishing an academy of healing, the [PETROVFOND](#) . In his writings I have encountered the same basic idea of the interaction by all levels of being in a logical and lawful conclusion and consequence. About the methods of Grigori Grabovoi You can also read in my [3rd Newsletter](#) and the article "Russian authorities have and teeth grow back - the eternal fountain of youth "on my website [www.petertodesco.ch](http://www.petertodesco.ch) read.

As far as I can estimate it, we are indeed around the world on track to a new and more harmonious future. We should not be deceived by the upheavals and disasters, and continue to trust the power of goodness and love. Today negative forces are defending themselves desperately to survive, that this transition can not take place peacefully, should not surprise us.

With my offering of information and with my course I would like to contribute to this change should blend more harmonious and profitable for all.

If you found this information "by chance", please contact me for a free preliminary, a personal encounter, an exchange of views, or an informative meeting.

With friendly greetings
